

GLASS THAT WILL SHAPE YOUR THINKING

METRO
PERFORMANCE GLASS

OPEN YOUR
EYES TO THE
AMAZING
POSSIBILITIES
OF GLASS

If you're building or renovating your home, don't overlook the potential of glass to add beauty and comfort.

With the high-tech glass range from Metro Performance Glass, you can transform rooms, let in more light and create stunning new features in every part of the house. You'll also enjoy higher levels of comfort than ever before. Our energy-efficient Low E double-glazing glass keeps you warmer in winter and cooler in summer.

Make the most of outdoor living with glass canopies, balustrades and fences that showcase the architectural highlights of your home and reveal the beauty of nature.

Contact us for your nearest Metro Performance Glass stockist, and start exploring the amazing possibilities of glass in your home

OUTDOOR LIVING

“ Glass is the perfect material to enable uninterrupted views, while providing a safety barrier for decks and pools. ”

DECKS

Glass balustrades can really open and extend areas, while adding a contemporary feel to any home. They deliver a stylish, strong safety barrier and are built using toughened or laminated safety glass.

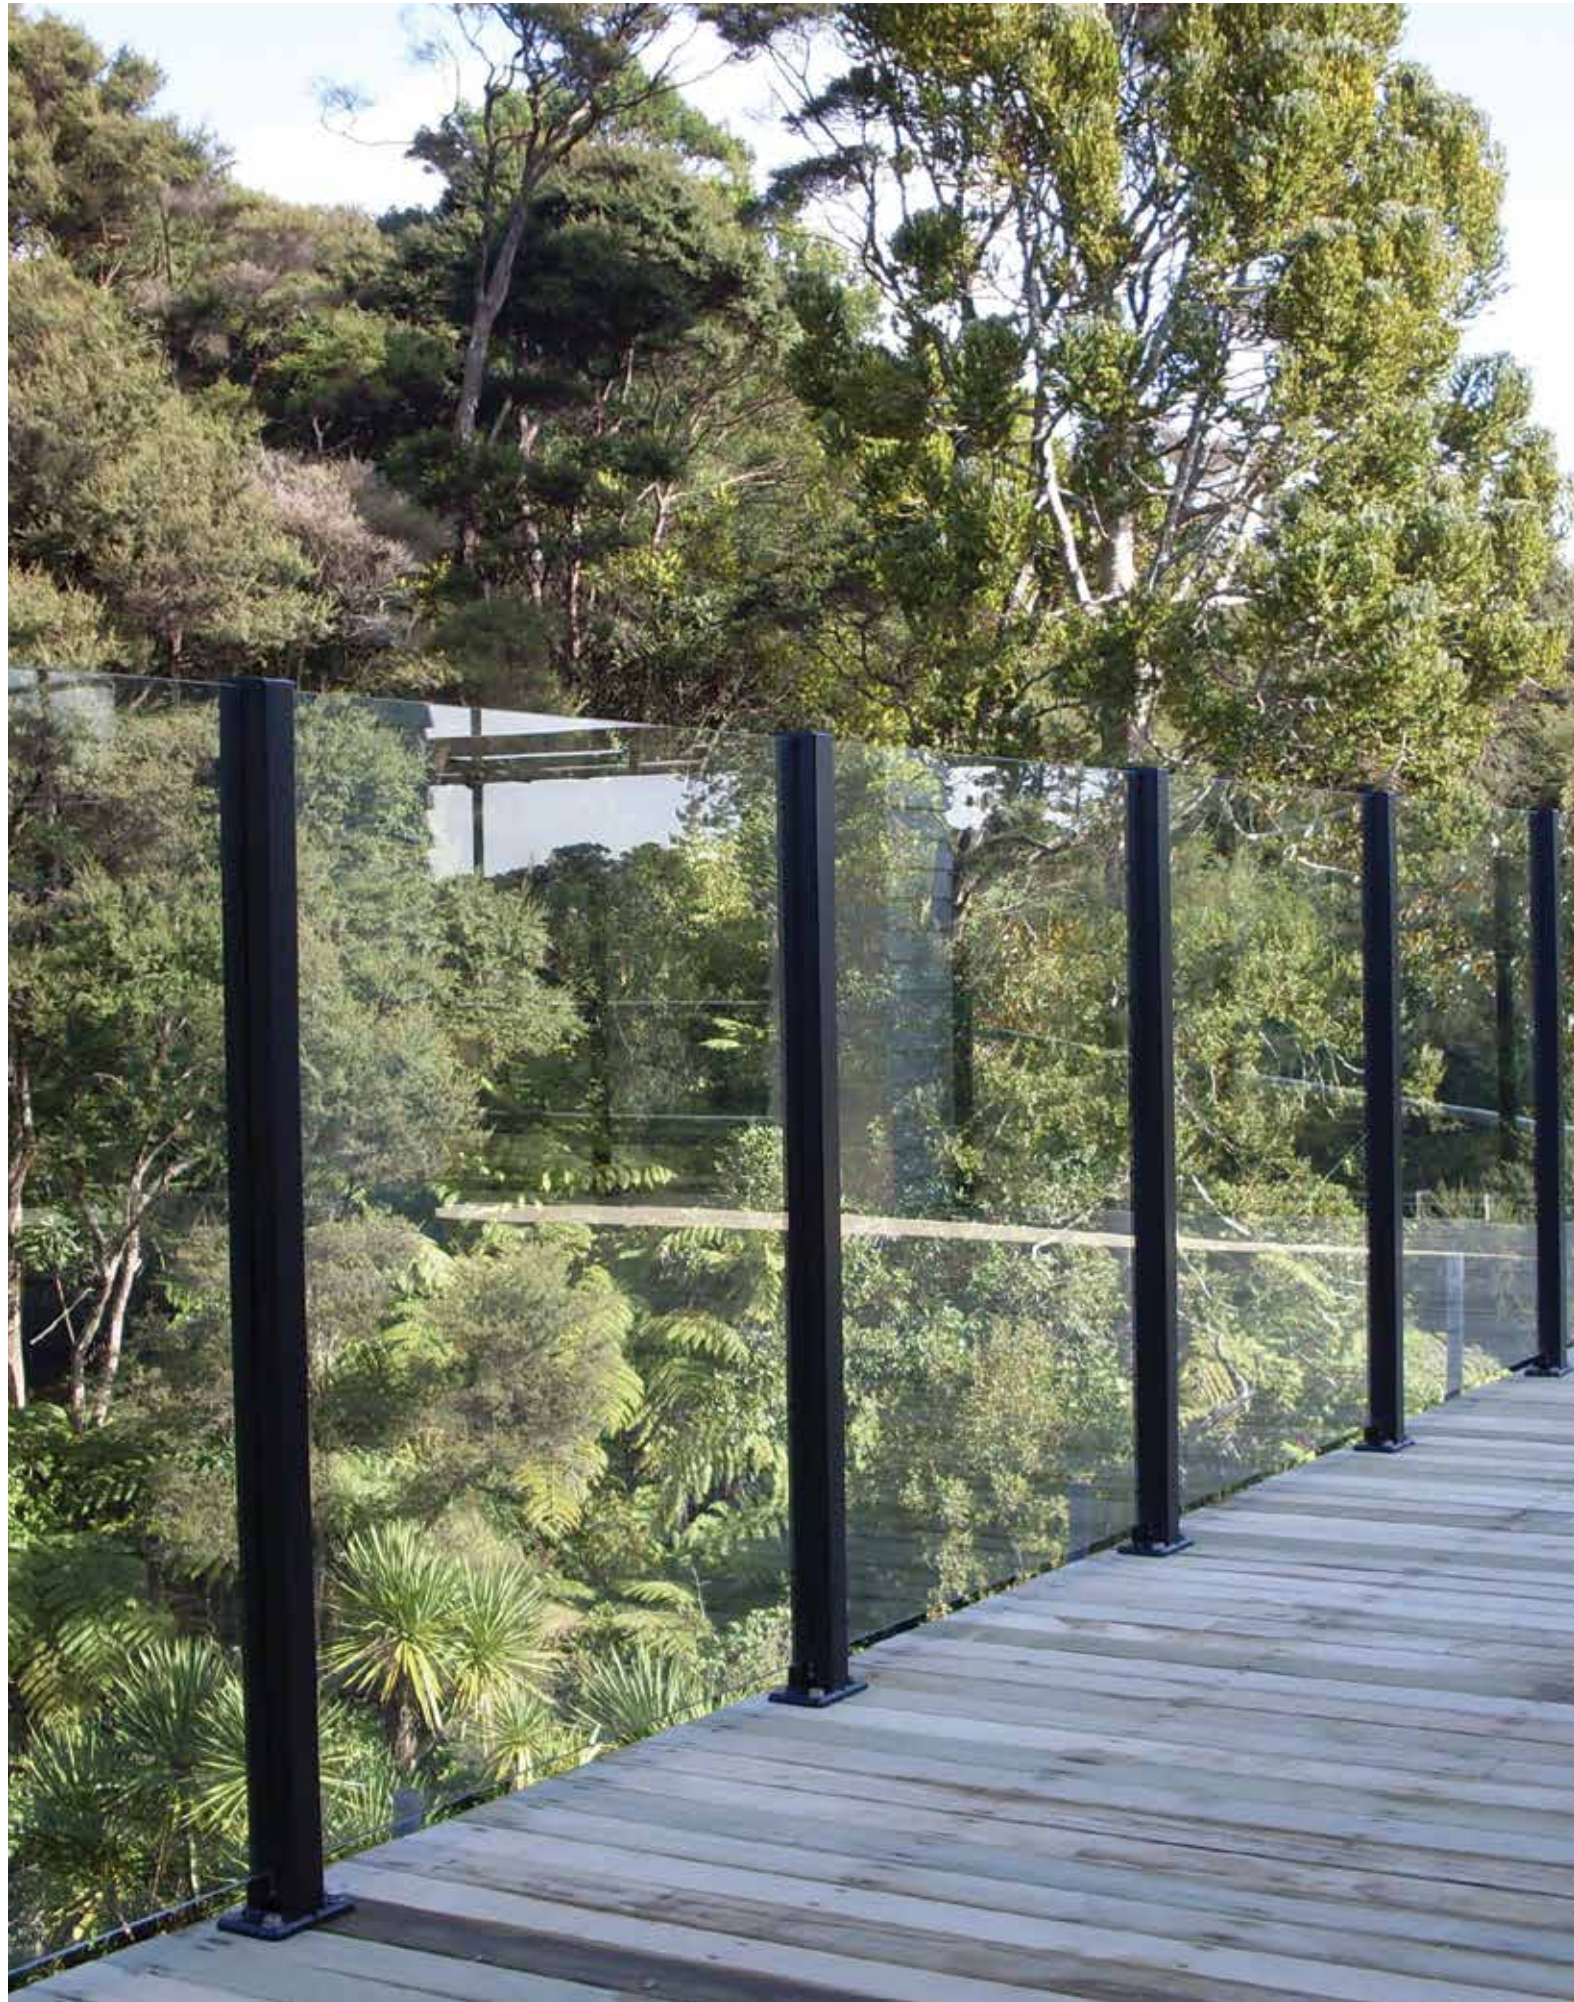

POOLS

How do you comply with legal requirements for fencing without compromising the visual appeal of your poolside area? Simple. Use our range of toughened or laminated safety glass to open up the area while providing a secure barrier.

FENCES & WINDBREAKS

Modern high-performance glass is perfect for fencing off areas for protection against prevailing winds without obstructing views. Glass is a stylish solution that ensures security and allows for access while preserving sight line.

CANOPIES & LANDSCAPING

Enjoy your outside space all year round with glass canopies, fences and gazebos that let in light while keeping out the wind and rain. Then take advantage of the sculptural possibilities of glass by commissioning a designer piece that complements your garden.

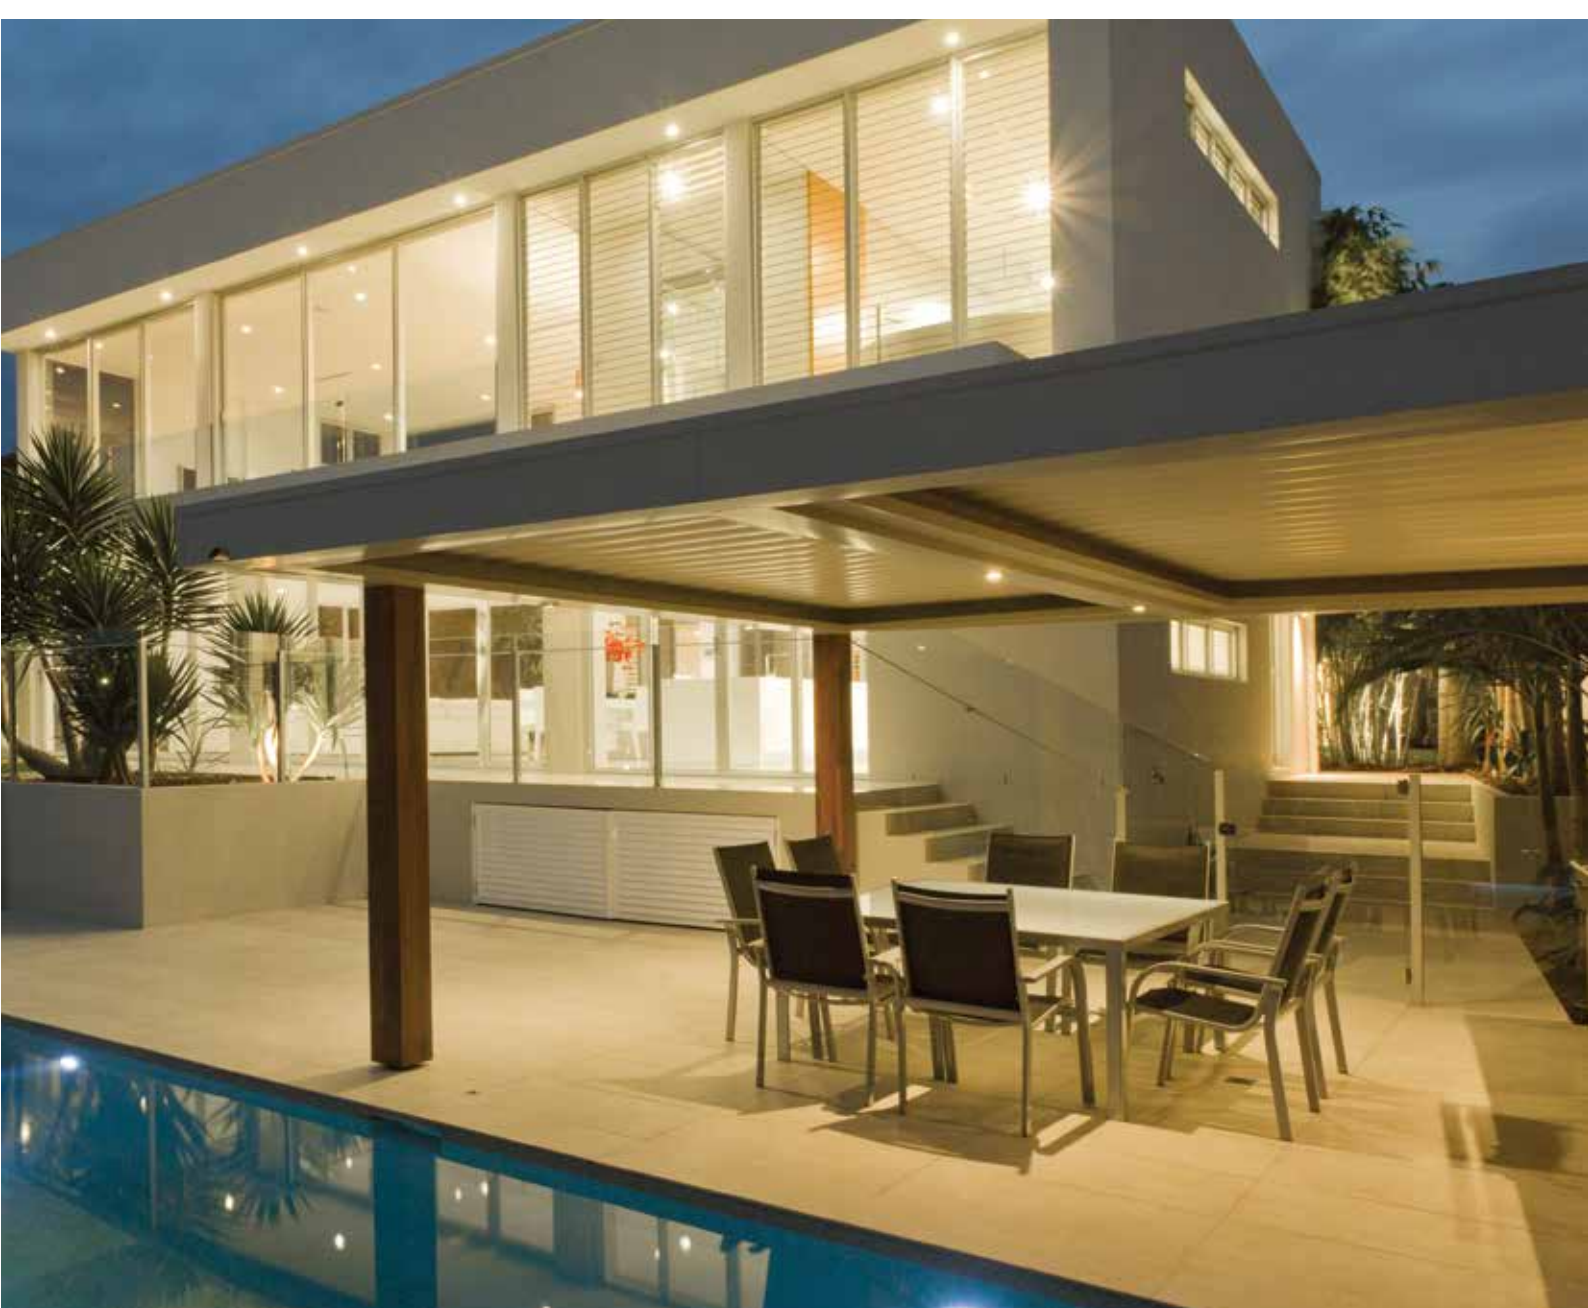

WINDOWS & DOUBLE GLAZING

With the latest Low E glass in your double-glazed windows you'll enjoy a warmer, dryer and healthier home. Low E double glazing reduces noise, keeps the house cooler in summer, and can even enhance your resale value.

INDOOR LIVING

“Glass balustrades have the benefit of opening up and extending living areas, whilst ensuring safety barriers are in place for stairwells, mezzanine floors and upper storeys.”

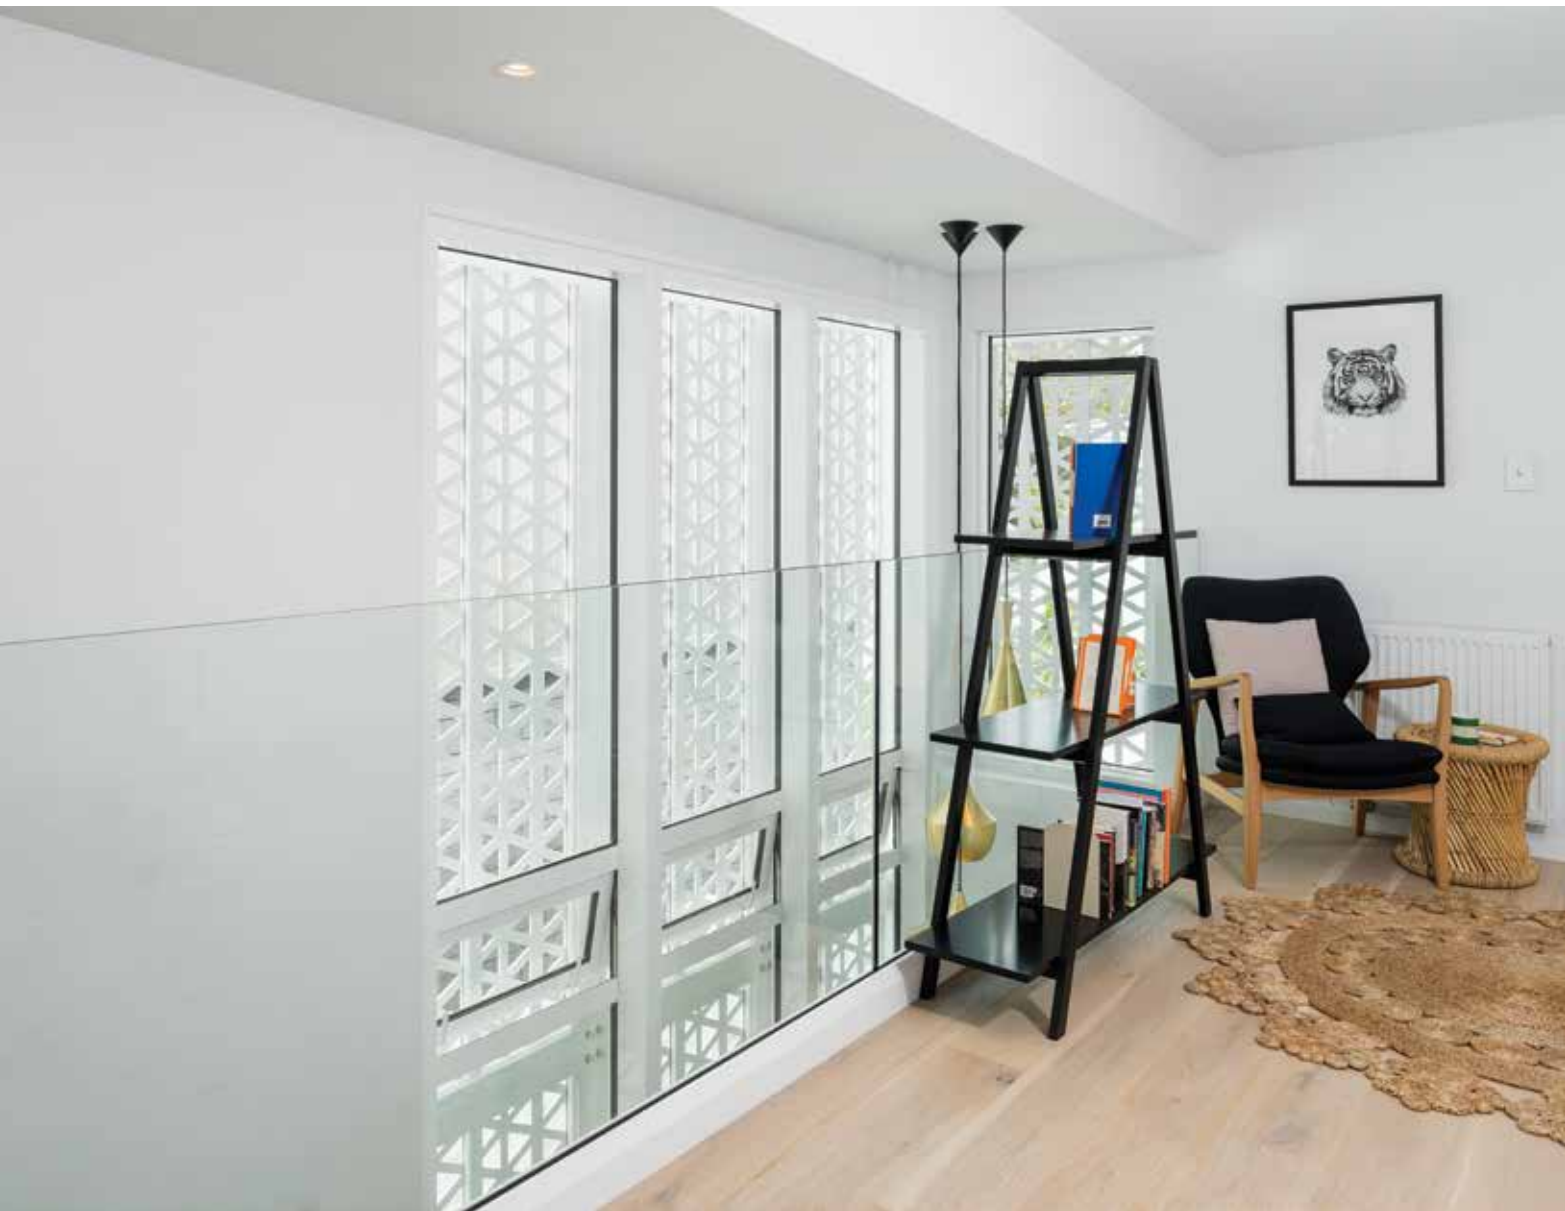

LIVING

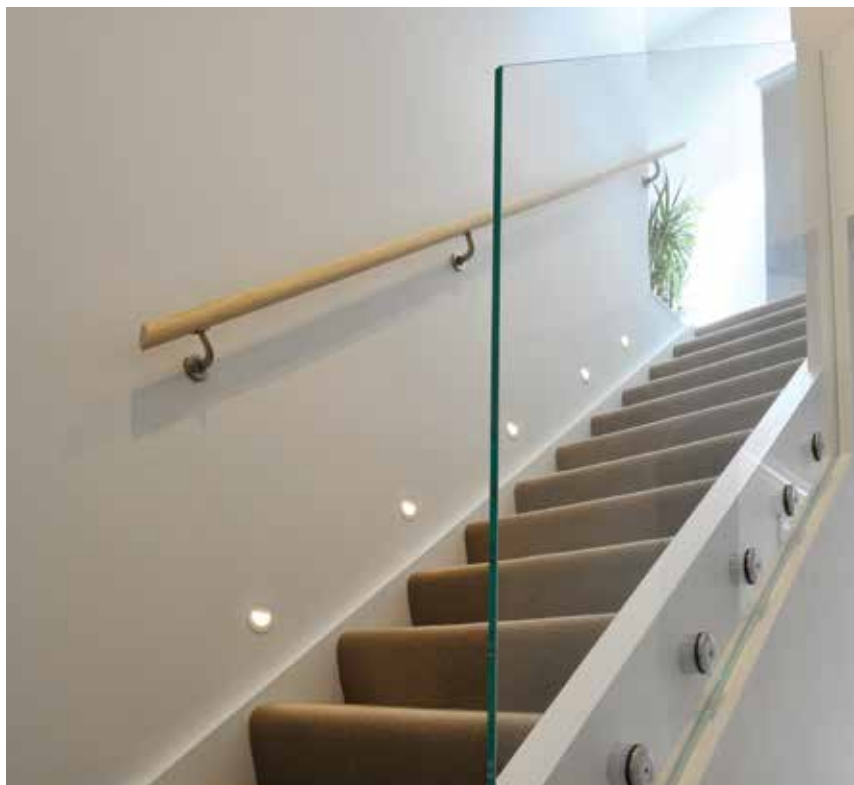

Bring the outside indoors, and enjoy year-round light and comfort. Low E double glazing can reduce heat loss in winter while minimising glare and heat gain in summer.

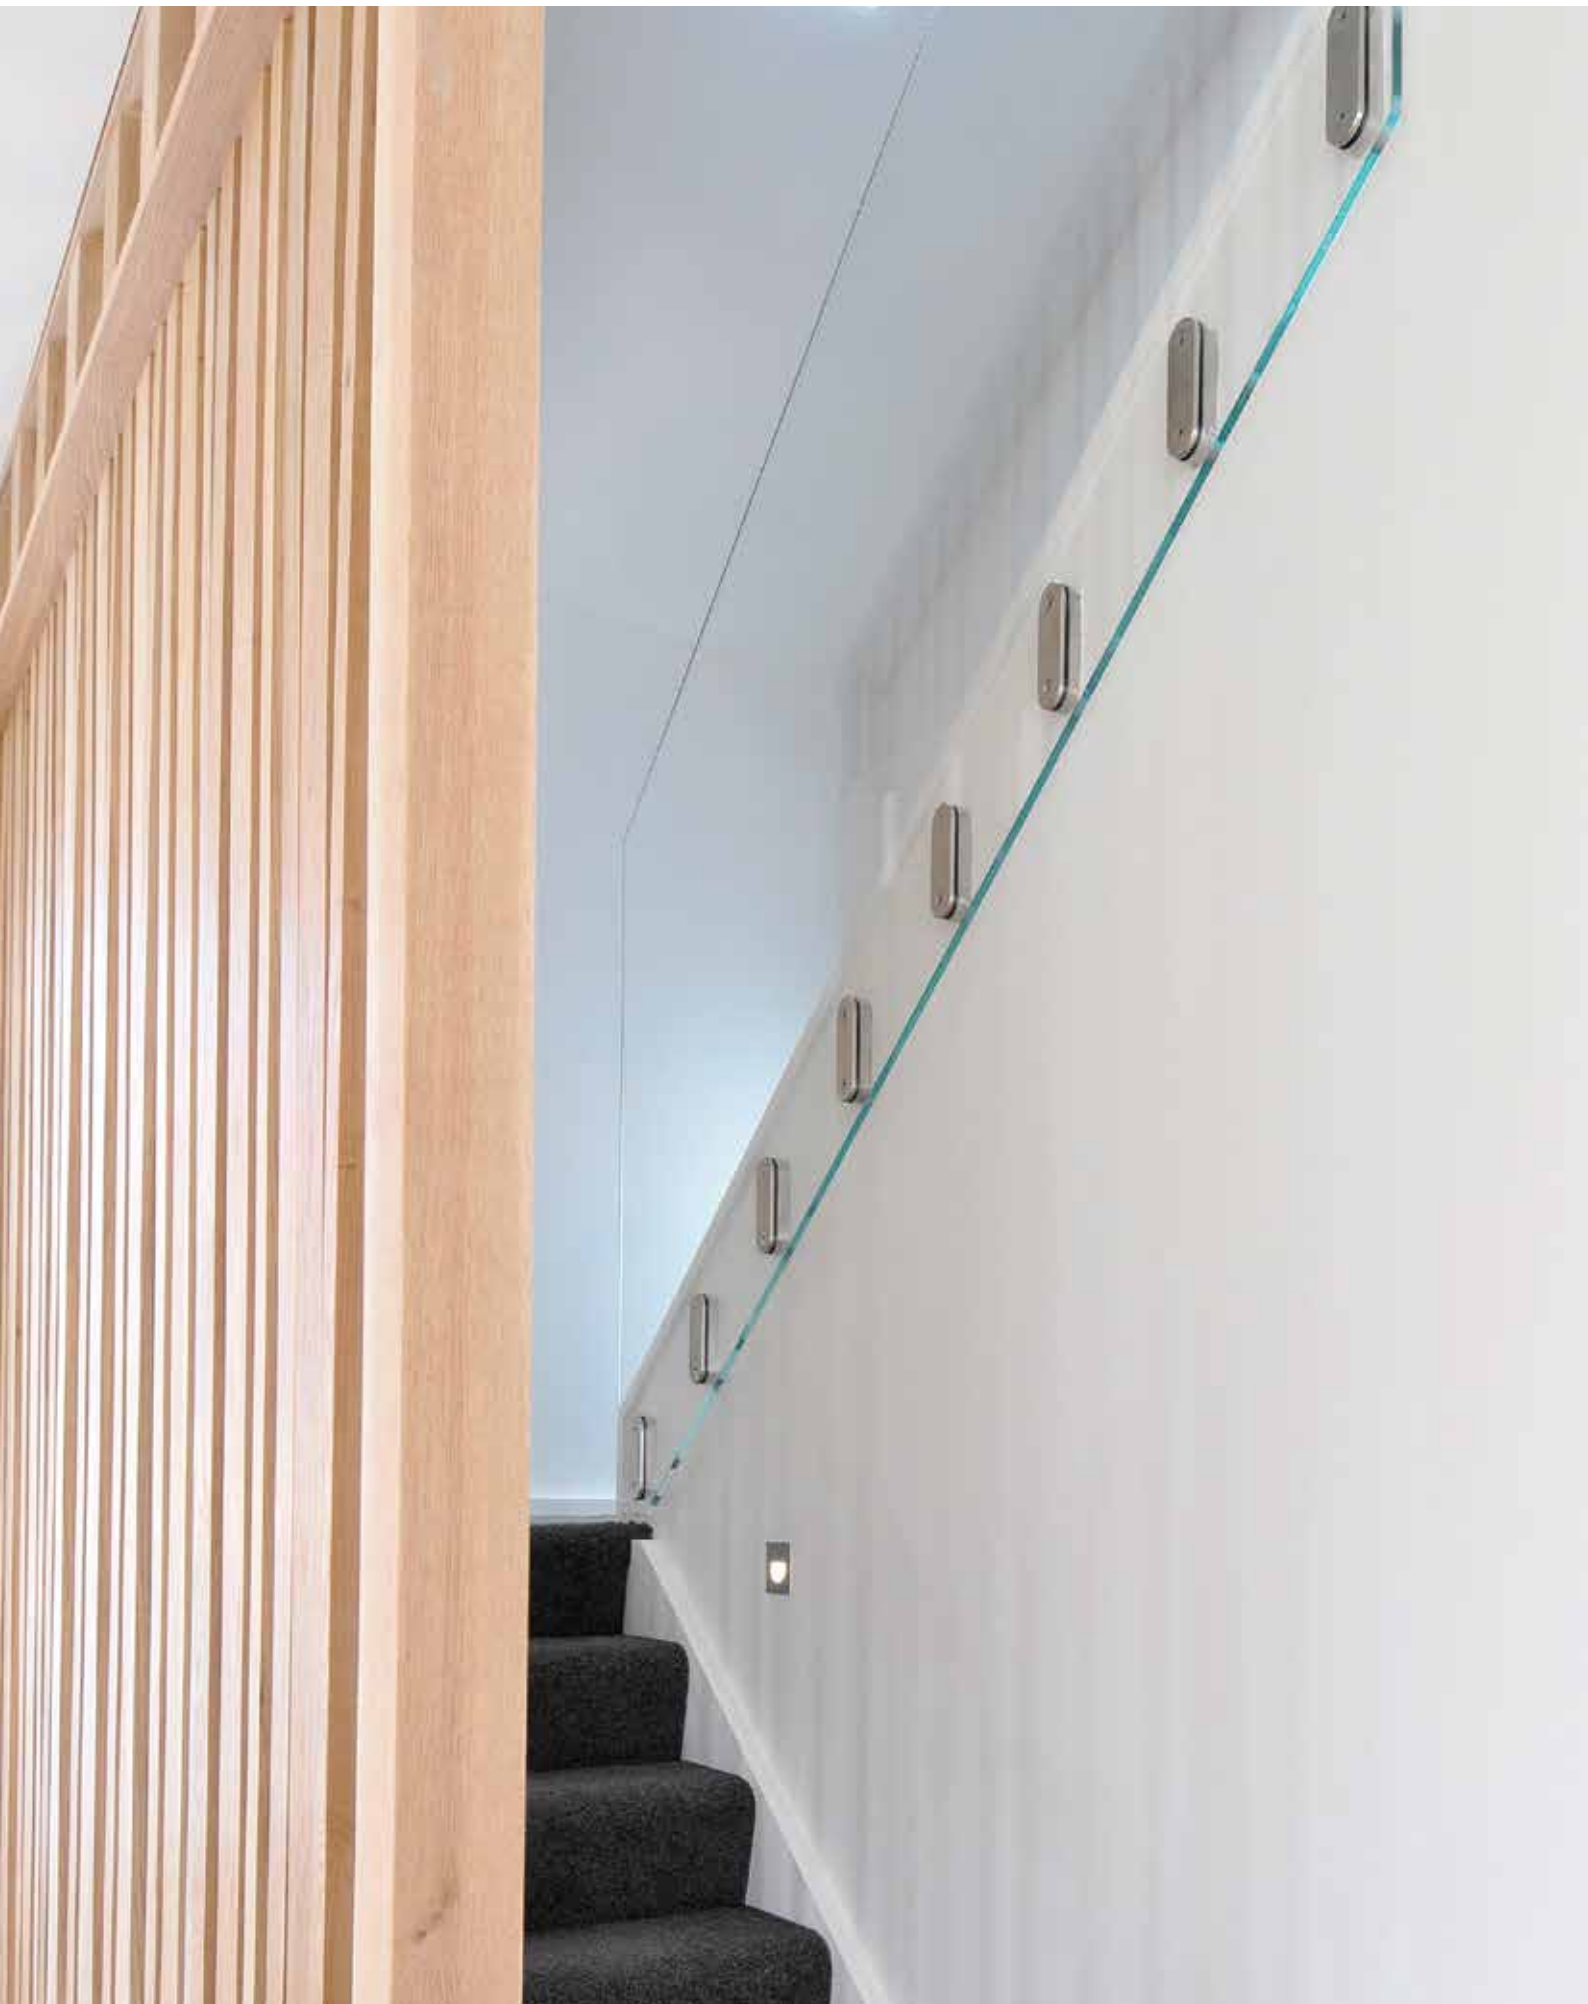

STAIRS & BALUSTRADES

For a light and airy interior, nothing beats glass. Glass balustrades open up and extend your living areas while ensuring safety barriers are in place for stairwells, mezzanine floors and upper storeys.

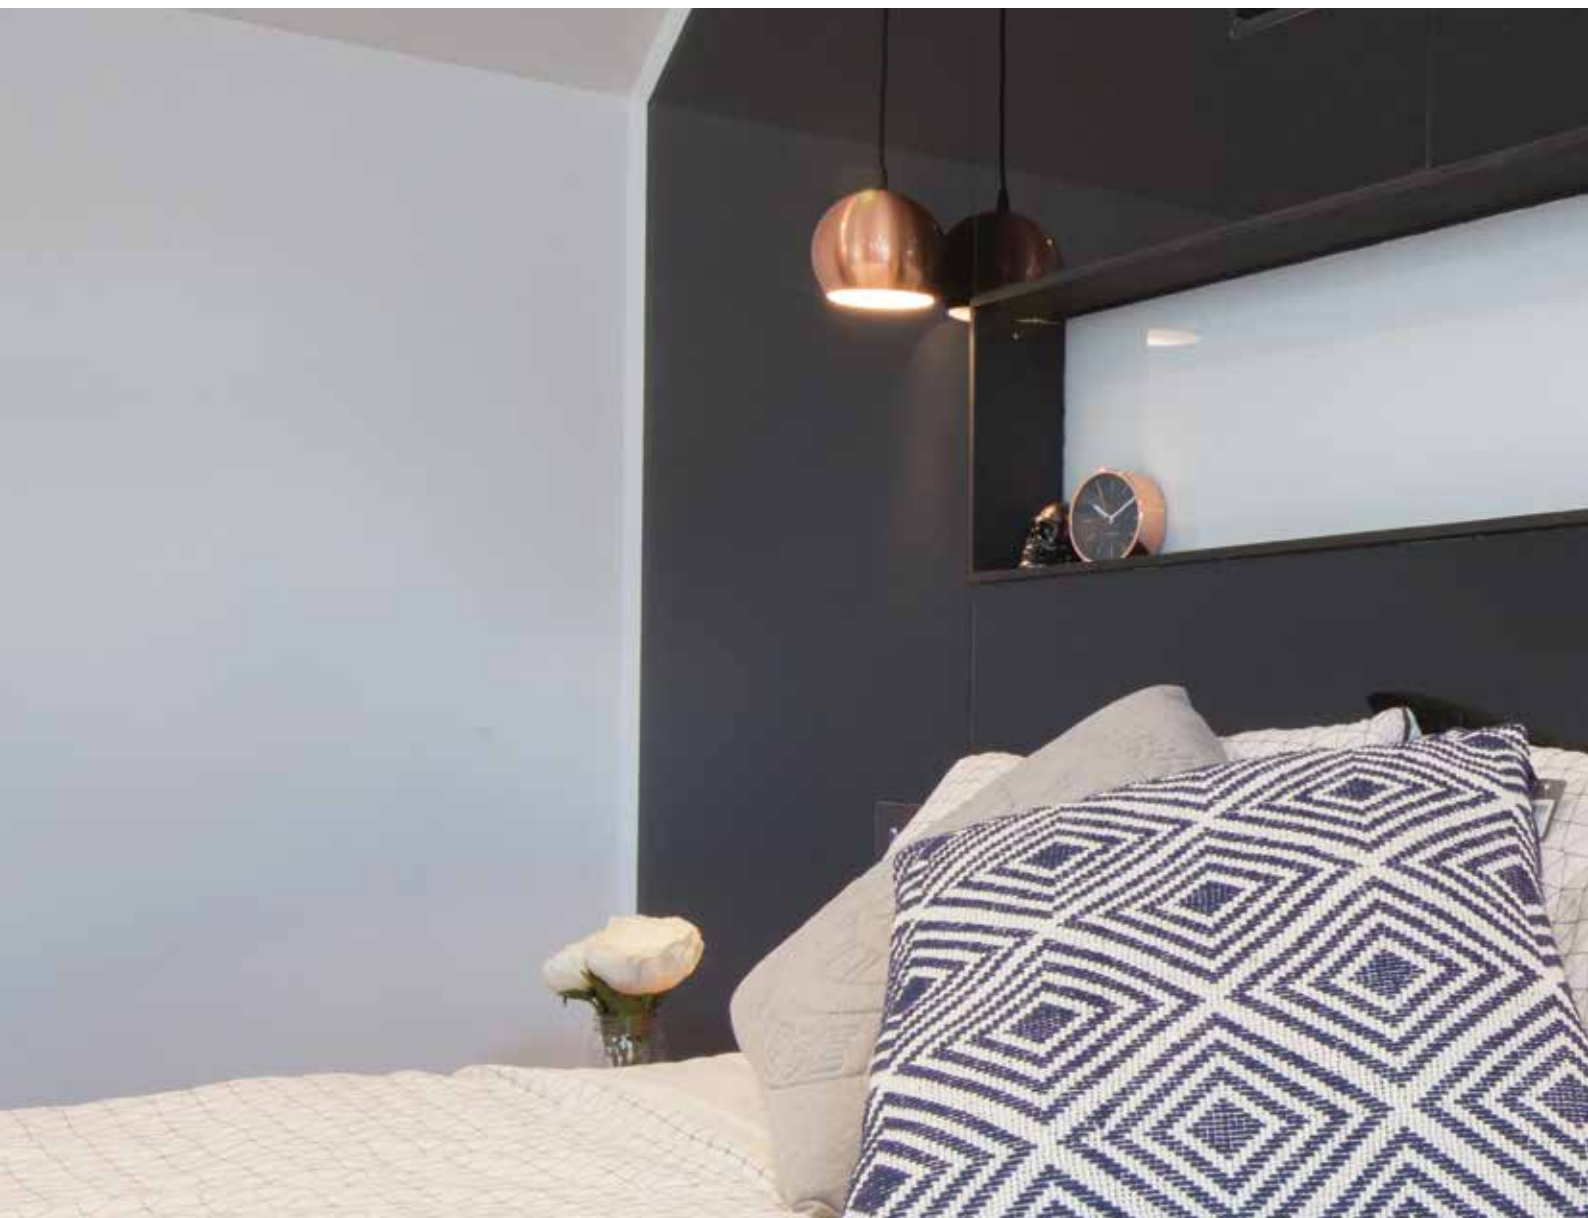

DOORS & ROOM DIVIDERS

Sliding doors and room partitions let you create more flexible living areas. Use the unique aesthetic properties of glass to add appeal to your cavity sliders or dividing walls, with translucent, coloured or digitally printed designs. They're easy to clean, too.

BEDROOMS

A bedroom needs to deliver ultimate comfort and be a place where you feel safe, warm and relaxed. Double-glazing windows with Low E glass will provide the highest levels of comfort, whilst the reflective nature of glass on bedroom walls will make the space look larger and more expansive. Also, don't overlook the aesthetic possibilities provided by mirrors, glass wardrobe doors and glass furnishings.

KITCHENS

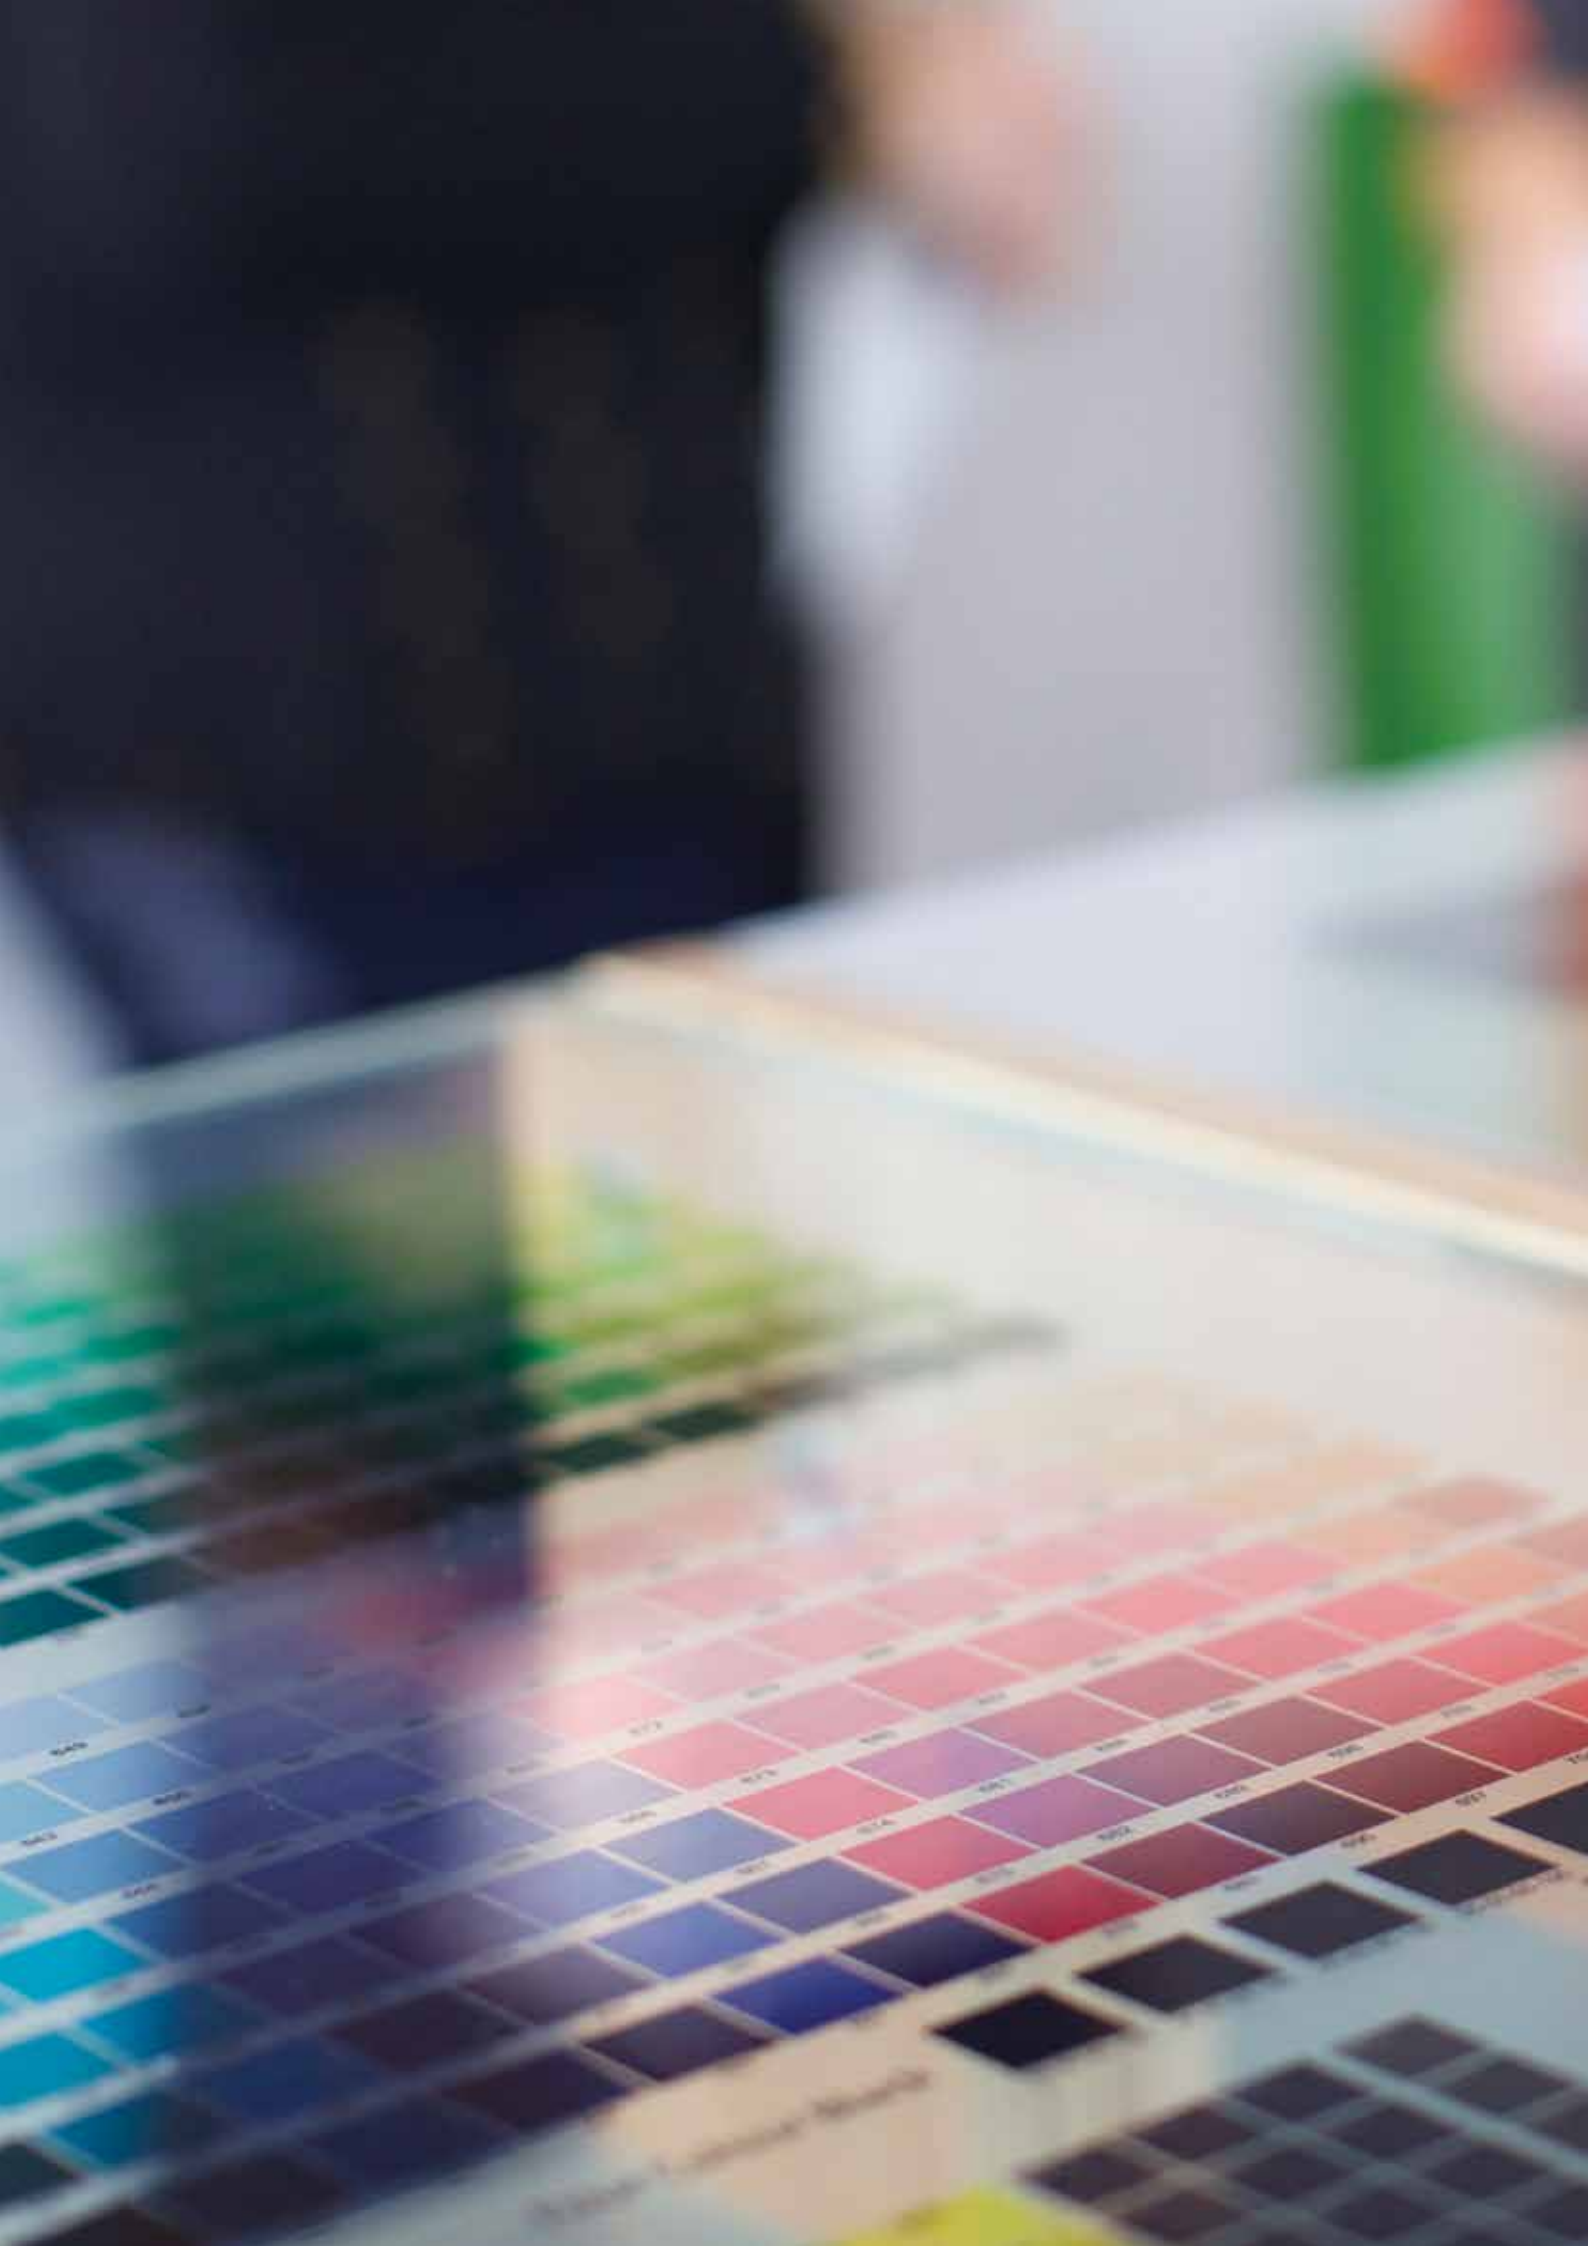

Reinvent your kitchen using versatile ColourBak glass for designer splashbacks, cupboard doors, kickplates and counter tops. For a truly unique touch, specify decorative glass with your own choice of digitally printed designs.

BATHROOMS

Metro Performance Glass specialises in glass shower liners, frameless showers, decorative glass and mirrors to suit every space. With clever design and the latest designer glass you can create a bathroom that feels large and luxurious.
