PRODUCT OVERVIEW

Frameless Showers

(Hinged, Screen, Sliding and Soft Close incl Glass Shelves)

A glass shower screen delivers timeless elegance, custom designed to suit your bathroom. The clean lines and design simplicity provide the least visual intrusion and the maximum light flow. Even small bathrooms feel larger, and the minimal use of fittings and seals means less areas for unsightly mould to build. Metro is able to offer various hinged, sliding and soft close options to suit a broad range of applications.

Combined with Ezyclean® Technology, Clearvision®, decorative glass and a number of hardware options we have a solution to suit every application.

Hinged Door

Enclosed showers separate the shower water from the rest of the room. There is also the ability to have coloured hinges and handles.

Sliding Door

Enclosed showers with a sliding door combine the benefits of a small footprint like a Walk-in shower while also closing the wet area off from the rest of the bathroom.

Walk-In

Walk-in showers are convenient and easy to access particularly in small bathrooms.

Design Guidance Frameless Showers

Our showers are custom made to suit your bathroom layout. Whether it requires hinged or sliding doors, angled panels or notch cut-outs, we deliver the best solution. Shower hardware can be matched to your other bathroom fittings and/or decor.

- Typical Shower Designs:
- ▶ Inline Showers
 - ▶ Square Showers
 - ▶ Quadrant Showers
 - ▶ Sliding Showers
 - ▶ Curved Shower
 - ▶ Bath End Shower
 - ▶ Bifold Bath Screen

EzyClean (Used in Showers)

EzyClean is an optically clear protective coating that chemically bonds to the glass surface, creating a non-stick barrier resistant to corrosion, etching, and staining. However, while cleaning is made easier and less frequent, the need to clean is not eliminated. Treated glass becomes both hydrophobic and oleophobic (water and oil repellent) protecting against most forms of dirt and grime. The molecule is highly resistant to chemical breakdown by UV light giving it long term stability. This protection thereby reduces staining and etching that often forms on shower recesses.
